For, Dynemic Products Limited Varsha Mehta total gross savings in recent years, except for FY21 — the pandemic year — when this proportion shot up to 78.5% touching ₹43.9 lakh crore.

Rising middle-class disposable income, directed efforts at financial inclusion, digitalisation and ease of investing in mutual funds and stocks and government incentives have helped to channel savings to the industry. Moreover, with rising inflation, households are seeking higher returns than what fixed deposits can offer.

The study shows life insurance accounts for the biggest chunk of the total managed investments industry, with over ₹53 trillion of assets under management (AUM) as of last fiscal, amounting to 39% of the total industry assets followed by mutual funds, with over ₹38 trillion in AUM, or 28.4% of industry assets.

The AUM of the National Pension System (NPS) rose to ₹7.36 trillion in FY22, clocking 33.7% compounded annual growth rate over five years. Investments in provident fund (PF) grew to ₹25 trillion at the end of March 2022 from ₹12 trillion at the end of March 2017.

Increasing formalisation will boost NPS and PF numbers further. Though all these investments account for only 10% of households' gross financial savings, they have gained from a big shift out of bank deposits.

Over the past decade, there has also been a sharp rise in investments into big-ticket capital market instruments such as alternative investment funds and portfolio management services, which require minimum investment of ₹1 crore and ₹50 lakh, respectively.

Financialisation of assets and its increasing flow into the managed investments industry in recent years have been backed by buoyant debt and equity markets on the back of excessive liquidity.

So, any prolonged disruption in the financial markets or liquidity conditions can impact investor experience.

Govt-sector NPS corpus at ₹5.7 trn

Three states — Chhattisgarh, Rajasthan and Jharkhand — have gone back to the old pension system, where the benefits to the users are "defined", without any contribution from them or the employer (government). With Punjab and Himachal Pradesh also seen to toe the line, the new pension system is under threat.

'Expect return on assets to surpass 4% in FY24'

AJAY RAMANATHAN Mumbai. December 14

MICRO-FINANCIER CREDI-**TACCESS** Grameen is expected to generate return on assets of over 4% in FY24 (April-March), says MD and CEO Udaya Kumar Hebbar. "This (return on assets)

should improve because the pricing benefit (on interest rates) will accrue fully only by FY24. Also, the cost of credit will come down," Hebbar said. "The return on assets will be much better next year due to these two factors,"he added. The company expects to

Earlier this year, RBI removed the cap on pricing of microfinance loans and this has given a fillip to CreditAccess Grameen, say analysts.

In April, the company migrated to a risk-based pricing model from a regulationbased pricing method. It hiked its lending rate by 130 basis points pursuant to this shift. The risk-based pricing method takes a lender's cost of borrowing, cost of capi-

FM promises more steps to further tame inflation

Sitharaman ruled out fears of stagflation, stressing that India remains one of the fastest-growing economies in the world and inflation is contained within a reasonable level. Stagflation typically refers to a scenario of slow growth and an elevated unemployment rate accompanied by high inflation.

In October, the International Monetary Fund slashed its FY23 growth projection for India by 60 basis points from its July forecast to 6.8% but retained its FY24 prediction at 6.1%. But despite the downward revision, India's growth rates for this fiscal and the next would still be way above the agency's projected global economic expansion rates of 3.2% and 2.7%, respectively.

The gross bad loan ratio of (state-run) banks, the minister said, dropped substantially to about 7.3% of their advances as of March 2022, thanks to a raft of measures initiated by the government. The ratio was as high as 14.6% as of March 2018.

The most significant step announced by the government to tackle the bad loan crisis was massive capital infusion into the state-run banks.

The minister stated that the rupee is appreciating against most other currencies, and its fall against the dollar is lower than that witnessed by other currencies.

Citing a World Bank report, Sitharaman highlighted India's robust foreign exchange reserves, which would act a cushion against any spillover from the global turmoil in the aftermath of the Ukraine war.

Deliberating on the supplementary demands, a third of which will go towards funding fertiliser subsidy this fiscal, the minister called for steps to attain self-sufficiency in the key farm nutrients.

The government has sought an additional spending of ₹1.09 trillion for fertiliser subsidy in FY23.

(% change, y-o-y)

Headline WPI inflation has dropped sharply and steadily since hitting an over 30-year peak of 16.63% in May. Inflation based on the consumer price index (CPI) dropped below the 6%, the upper limit of the central bank's medium-term target, for the first time in November, after a gap of 10 months.

Icra chief economist Aditi Nayar expected WPI inflation to drop further in December on easing commodity prices.

In WPI, primary food inflation crashed to just 1.07% in November from 8.33% in the previous month, thanks mainly to a drop in prices of vegetable (20.08%), onion (19.19%) and fruit (1.07%) during the winter season. Primary article inflation hit a 21-month low of 5.52%.

Manufactured product inflation, which has a 64.2% weight in WPI, hit a 24month low of 3.59%, broadly mirroring the easing of global prices of commodities like basic metals, mineral products, rubber, chemicals and pharmaceutical products. Fuel & light inflation eased to a 20-month low of

Even prices of crude petroleum and natural gas rose by a steep 48.2%, reversing the deceleration trend observed pressure in food. However, since May, India Ratings'

The regulator recently defined the first close for a fund and issued norms on ring-fencing of assets and liabilities among various AIF schemes. Earlier this year, the regulator directed investment managers of AIFs to appoint compliance officers.

Until then, AIF regulations merely enumerated the roles and responsibilities for managers, sponsors and trustees, without thrusting compliance obligations on a specific individual.

In 2020, Sebi's diktat that members of the AIF's investment committees would be required to be equally responsible as the fund manager for investment decisions had rattled the industry.

"In the AIF segment, fund managers will have their task cut out in enhancing investor experience and attracting domestic flows with suitable product structuring in order to help the industry grow. However, since it is an evolving segment, building a strong foundation based on transparency, disclosure and investor communication will be crucial," said a recent note by Crisil Research.

AIF commitments have grown 42% year-on-year to ₹6.94 trillion as of June 30, 2022, showed the latest Sebi data. The amount invested has risen 43% to ₹3.1 trillion and the number of AIFs is inching
